

Name: OPEC Pre-Conference Assignment

Dear OPEC Delegates:

Welcome to the OPEC Delegation for HMC Asia 2010! In order to prepare and familiarize yourself with the OPEC organization, history, and current issues, please complete the brief pre-conference assignments below and send to your chair.

Please answer the following questions below

1. What is your country's stance towards the development of sustainable alternative energy like wind, solar, and biomass? How would your country plan to deal with a shift towards sustainable energy?
2. Does your country have adequate levels of oil in reserves for future years?
3. How much oil does your country export in comparison to others?
4. Has your country normally been able to reach their assigned oil output quotas in the past? Does it tend to adhere to its respective output quotas or violate them?
5. How has the financial crisis individually impacted your country's oil exports?

Please consult the Briefings on the committee pages of the HMC Asia website so that you can familiarize yourself with their topic areas and other pertinent information. Please do not hesitate in contacting your chair Evan Covington (ecovingt@fas.harvard.edu) if you have any questions or concerns. Good luck!
